

Linzer Cookies

During Christmas holidays at our place Linzer cookies are obligatory, besides other biscuits and cakes. But not only during holidays do we love to have our biscuit box full of Linzer cookies. The longer they stay in a well closed box, the tastier and better they are.

NOTES AND ADVICE :

Do not touch the finished, filled cookies till the jam hardens.

If you want to decorate them with powdered sugar, it is best to do that as soon as you fill them with hot jam, so that hot jam can absorb sugar. In that way your cookies will be decorated with powdered sugar and the jam will look like as if you had not sprinkled it at all.

It is important to roll the cookies out as thin as possible, max. to 0.5 cm so that they are not too thick later when joined together.

In every oven pastry is baked differently, the baking time depends on thickness, pastry has been rolled out to, so take care of your cookies during baking.

When cookies loose their shine during baking, keep an eye on them because now they need just a minute or two to be ready.

When your cookies are cut out, it is best to use a spatula to put them on a baking try, in this way you will avoid deforming them with your fingers.

If the pastry sticks to the spatula or to the moulds, just sprinkle a little flour on them.

The cookies **MUST NOT** get coloured, they have to remain light.

While rolling the pastry out, try to use flour as little as possible, to avoid spoiling the pastry texture , otherwise you will later have hard and less tasty cookies.
